NON-PATENT LITERATURE DOCUMENTS

NON-PATENT LITERATURE DOCUMENTATION		
Examiner Initials*	Cite No.	Include name of the author (in CAPITAL LETTERS), title of the article (when appropriate), title of the item (book, magazine, journal, serial, symposium, catalog, etc.), date, page(s), volume-issue number(s), publisher, city and/or country where published.
		Steffan Schantz et al., "Poly(methyl methacrylate- <i>co</i> -ethyl acrylate) Latex Particles with Poly(ethylene glycol) Grafts: Structure and Film Formation", Langmuir 2007, 23, 3590-3602

EXAMINER: Initial if examiner consulted, whether or not consulted in conference with WFOB 609. List one line each case if test or non-consultation. Indicate by code of this form with next communication to applicant.
UNEXAMINED: Initial if examiner consulted (optional) **USPTO Code** of USPTO Patent Document and its categories or WFOB 609. Test Office: mark the code of the type of test:
1. Test of prior art documents
The application is examined by the prior art documents which are referred to in the specification, drawings, claims, abstract, and other parts of the application.
2. Test of the entire application
The application is examined as a whole, including the prior art documents referred to in the specification, drawings, claims, abstract, and other parts of the application.
3. Test of the claims
The application is examined only with respect to the claims.
4. Test of the specification
The application is examined only with respect to the specification.
5. Test of the drawings
The application is examined only with respect to the drawings.
6. Test of the abstract
The application is examined only with respect to the abstract.
7. Test of the entire application except the claims
The application is examined as a whole, except that the claims are not examined.
8. Test of the prior art documents only
The application is examined only with respect to the prior art documents referred to in the specification, drawings, claims, abstract, and other parts of the application.
9. Test of the prior art documents and the claims
The application is examined with respect to both the prior art documents referred to in the specification, drawings, claims, abstract, and other parts of the application and the claims.
10. Test of the prior art documents and the specification
The application is examined with respect to both the prior art documents referred to in the specification, drawings, claims, abstract, and other parts of the application and the specification.
11. Test of the prior art documents and the drawings
The application is examined with respect to both the prior art documents referred to in the specification, drawings, claims, abstract, and other parts of the application and the drawings.
12. Test of the prior art documents and the abstract
The application is examined with respect to both the prior art documents referred to in the specification, drawings, claims, abstract, and other parts of the application and the abstract.
